

COAL REGULATION IS FAR REACHING

Further Restrictions May Become Necessary—Threats To Close Early.

Washington, D. C. Nov. 29.—The new regulations which go into effect at noon Monday are as far-reaching in many respects as those of the war winter of 1917-1918, and in its announcement to the public the committee stated that unless miners return to work in such numbers as to provide a substantial increase of coal, at an early date "still further restrictions may be necessary, and consideration will have to be given to the distribution of stocks of coal now in the possession of industries not recognized as vital."

The new restrictions will be enforced under the war-time powers of the fuel administration. They provide, chiefly, that stores and office buildings may use heat, light or power only between 9 a. m. and 4 p. m. except for bakeries, restaurants, drug stores (for sale of drugs only), and barber shops which use light, heat or power from 8 a. m. to 6 p. m. Certain other exceptions are made to provide for various industries and businesses.

Theaters, moving picture houses and other places of public amusement may use light, heat or power only between 1 p. m. and 10:30 p. m.

All advertising signs and bill boards using electricity must be eliminated as must white way lights show windows and other lights not strictly essential.

Exceptions Are Made

Industries, except those whose continuous processes cannot be interfered with, may be operated only 48 hours a week. Exceptions are made to meet special conditions of railroad stations, hospitals, telephone and telegraph and newspaper offices.

Copies of the announcement which were furnished to newspapers for Sunday morning publication will be mailed to mayors of all cities in the southern region, which includes Alabama, Tennessee, Georgia, North and South Carolina, Kentucky, Florida, Mississippi and Louisiana, east of the Mississippi River.

Fuel supplies will be cut off where the regulations are not observed and in case of violations of the law attention of federal district attorneys will be called to the matter. All railroad agents handling coal are regarded as representatives of the committee in enforcing the provisions, while co-operation of all state and municipal officers also is asked.

HARTFORD LADIES' SOCIAL CLUB ENTERTAINED BY MRS. BURNS

The Ladies' Social Club was entertained last Wednesday afternoon by Mrs. O. T. Burns, at her residence on East Frederica street. A pink and white color scheme was daintily carried out in the ribbon decorations of the parlor and library. The score and tally cards were pink and white as were also the carnations that adorned the delicious salad course, served at the conclusion of the games of progressive rook.

The invited guests present were: Mesdames Claude Smith, Otto Martin, L. S. Iglehart and James Bennett. Club members present were: Mesdames Tom Black, E. G. Barrass, L. G. Barrett, Ernest Birkhead, Randall Collins, W. S. Tinsley, R. E. Lee Simmerman, A. C. Porter, J. S. Glenn, H. E. Mischke, and Hooker Williams and Misses Sophia Woerner, Lettie Marks and Mary Rowe.

MAN WITHOUT A COUNTRY

Simpson Barnett, who resides upon a farm which he owns, near the locks on Rough River, is virtually a man without a country. Mr. Barnett has been told by some that his land or the most of it, lies within McLean county, and by others that the larger portion of it is in Ohio county. Evidently the division line between the two counties passes through the farm, but no one seems to know just where, as the corner, if ever definitely established on the river has been lost.

Mr. Barnett has not been able to

cast a vote in any National, State or county election for more than a quarter of a century. Should he be a resident of Ohio county his voting place would be in the Hefflin precinct, and they have challenged and refused to allow him to exercise the rights of suffrage there. In case he is a citizen of McLean county, his place of voting would be Livermore and likewise his right to vote there has been questioned and denied him. For a number of years Assessors of the two counties have refused to list him for either property or poll tax purposes. He has repeatedly tried to get the authorities to settle the question of his citizenship, but to no avail.—Hartford Republican.

AGED LADY SUCCEUMS

Mrs. Palestine Webb, age 70 years, 3 months and 20 days, died at her home on the Hawesville road about 3 miles from Hartford, last Thursday November 27. She had complained of rheumatism for some time but her last illness was of short duration and came as a surprise to her many friends. The funeral was preached by Rev. R. D. Bennett, of Hartford, Friday.

The remains were interred in the cemetery at Beulah. She is survived by 3 sons and 4 daughters as follows: L. H. Webb, Ricaton, Miss, John Webb, Champaign, Ill., Claude Webb, Akron, Ohio, Mrs. W. H. Iler, Hazny, Mont., Mabel Webb Champaign, Ill., Clara and Ethel Webb, of Hopkinsville, Ky.

PROMINENT CITIZEN DEAD

Mr. R. Perry Kirk, one of Ohio county's most respected citizens, died at his home on Hartford Route 4, near Hefflin, Sunday November 30 after an illness of several weeks duration. He was nearly 62 years of age and had been for many years a member of the Baptist church. The members of his immediate family yet living are: a wife, three sons and three daughters. He was an uncle of attorney Arthur Kirk, of Hartford.

Funeral services were conducted by Rev. R. E. Fuqua Monday. The burial services were conducted by Hefflin Camp W. O. W. of which he was a member.

MEMBER OF "FIGHTING FIRST" VISITS HARTFORD

Lt. Tonnes Dennison, of the "Fighting First" now stationed at Camp Taylor, spent Thanksgiving with Mr. M. L. McCracken, of this city. Lieut. Dennison served in the A. E. F. with the companion battery to the one that fired the first shot for the United States against Germany and is in charge of one of the batteries recently formed for strike duty. His home is in Santa Barbara, California.

ENTERTAINED AT DINNER THANKSGIVING

Mr. and Mrs. Hooker Williams entertained a party of twenty with a delightful Thanksgiving dinner at their country home near Hartford. Those present from Hartford and vicinity were: Mr. and Mrs. Sam Barnett, Mr. and Mrs. Tom Black and daughter, Lola Geneva, Mr. and Mrs. Darrel Sullenger, Mr. and Mrs. Hut Stinnett and son, and Mr. and Mrs. Ernest Birkhead.

IGLEHART-McDOUGALL

Announcement of the marriage of Mr. Royce Iglehart and Miss Gladys Lillian McDougall in Texas has been received here. The wedding occurred November 18. Mr. Iglehart is a brother of Mr. L. S. Iglehart, of Hartford, and formerly lived in Ohio county. The home of Mrs. Iglehart was in Detroit, Mich. They will make their future home in Texas, where Mr. Iglehart has a position in the oil fields.

DEATH AT HORSE BRANCH

Miss Alice Murphy died at her home near Horse Branch, Wednesday, November 26, after a lingering illness of tuberculosis. She was about 45 years of age. The remains were interred in the Cane Run burying grounds Thursday.

COOL SPRINGS

Ohio county Singing Convention met at Cool Springs Baptist church last Sunday, there being several classes represented and all did some splendid singing.

OWENSBORO-BOWLING GREEN FEDERAL HIGHWAY

Will be Delayed—Owensboro to Raise \$30,000 for Ohio County.

Nov. 29.—The board of directors of the Owensboro Chamber of Commerce met yesterday afternoon to consider a plan suggested for the promotion of a federal highway to Bowling Green. The proposition is this: A proposed federal highway has been surveyed running from Bowling Green through Morgantown and Hartford to Owensboro. In addition to county appropriation it will be necessary to raise part of the money to construct this road by private contributions. This road is planned to pass through Ohio and Butler counties and terminate in Warren and Daviess counties. The funds necessary to construct the sections lying in Daviess, Butler and Warren counties are practically assured, but as the longest stretch will be built in the sparsely populated county of Ohio, it will be necessary to extend help from outside so that county can meet its share of the cost.

The plan offered is to raise in Owensboro approximately \$30,000 to give to Ohio county to help to meet her share of the expense.

The directors of the Chamber of Commerce have pledged themselves that they would abide by the decision of the membership as expressed by their suggestions offered at the recent group meetings in the management of the new Chamber. The large majority of members have registered their wishes in favor of first undertaking such local activities as the promotion of housing, sewerage, a hotel, etc. All of these will require the expenditure of considerable time, money and effort. The Chamber of Commerce of the city of Owensboro in general has only a limited amount of money to expend on any one project. It therefore remains to decide which project to undertake at once and which to put over until later. This has been decided for the directors by the membership and the only recourse is to allow the Bowling Green road proposition to come in its proper order on the program, which is fifth place. All recognize the merits of the road proposal as outlined, but the fact remains that even if Owensboro were to raise the \$30,000, to give to Ohio county the road would not then be assured as there still remains a considerable balance to raise in other counties. Further, Judge Wells says he would not wish to divert the money necessary for Daviess county's portion away from other roads within the county unless it is understood the 20 cent road tax is assured.

SWELL DANCE

The annual Thanksgiving dance as announced, was given at the Hartford opera house last Thursday evening by the management, Riley & Taylor, and proved a most brilliant entertainment. Several times the immense floor was crowded with the elite of Hartford's social set, who seemed to enjoy the occasion to the fullest. Quite a number of beautiful and elaborate evening gowns were worn that elicited the admiration of the onlookers, who were there in goodly numbers. A large number of out-of-town dancers were in attendance. Music was furnished by Parr Bros.' original Dixie Land Jazz Band, that won applause from all present.

HOPKINSVILLE MAN TIPPED

Frankfort, Ky., Nov. 29.—Judge W. T. Fowler, of Hopkinsville, will be First Assistant Attorney General under the new administration, it is reported here. Two other assistants, a law clerk and stenographers, are yet to be named by Charles I. Dawson, Attorney General-elect.

LANSING'S REPLY TO MEXICAN NOTE DELIVERED

Wan's Immediate Action On Former Note Demanding Release of Jenkins

Washington, Nov. 29.—The American Government reply to Carranza's answer of November 26 to the Lansing demand of November 20 for the immediate release of William O. Jenkins, the American Consular Agent under arrest for the past ten days at Puebla, went forward before daylight this morning.

It is addressed to George T. Sumnerlin, American Charge d'Affaires at Mexico City, who is expected to have received and decoded it in time to deliver it to the Mexican Foreign Office to-morrow morning.

Returning members of the Foreign Affairs and Rules Committees have been in informal conference over the Mexican situation and have taken steps to obtain the latest detailed information as to the status of the Jenkins case.

UNION

Services Held At Princeton Methodist Church Sunday Evening

The union service, which was held at the Methodist church, in this city, Sunday evening, in which the Christian, Central Presbyterian and Cumberland Presbyterian churches participated, was an occasion of much interest and large attendance, the new Methodist pastor, Rev. A. D. Litchfield, preaching to a well filled house and delivering a sermon of eloquence and power.

This pleasant custom of the ministers of these churches, of adjourning their own congregations in order to formally and cordially welcome a new minister to a sister church is one which is both commendable and uplifting, and throws about the new minister an atmosphere of cooperation and support which goes far toward making him a fitting unit in the community to which he has come.

Rev. Litchfield is a man of commanding expression and eloquence, humorous, serious, and deep thinking, and was at his best at the Sabbath evening's service at which he chose for his subject a passage of scripture from the Ephesians, bringing out the strength and beauty of the life of that great disciple, Paul, and bearing his audience with him in a lofty flight of intellectual fervor. Revs. Whitehouse, of the Christian church, Claycomb, of the Central Presbyterian church and Woodruff, of the Cumberland Presbyterian church assisted in part during the service, and expressed welcoming sentiments and goodwill toward the Rev. Litchfield and his family during his pastorate in our city.—Princeton Leader.

ONE ARREST FOR DRUNKENNESS DURING MONTH OF NOVEMBER

One arrest for drunkenness was made by the police during November. The victim was given a fine of \$50. There was a total of twenty arrests for various causes during the month, the fines assessed being \$155.

There were six arrests for idleness. All of these men were able to procure physicians' certificates showing that they were physically indisposed for work. There were four arrests for disorderly conduct, three for speeding, three for breach of the peace, two for gaming, one for destroying property.

Since prohibitions went in there has been a steady decrease in the business of police court. The fines assessed during July totaled \$445. Fines for August were \$340. For September, \$660; for October, 265, and for November \$135.

Most of the past month there were no prisoners in the city workhouse.—Owensboro Inquirer.

SURPRISE BIRTHDAY DINNER

On the beautiful morning of Nov. 23, the many friends, neighbors and kin met at the home of Mr. W. T. Brown, better known as Brub Brown to celebrate his 70th birthday anniversary. Everybody brought their baskets well filled. The table was a nice scene, loaded with

everything one wanted to eat. Uncle Brub was very much surprised when the crowd began to gather. After several had arrived he asked his wife "What does this mean?" When he found they had come to enjoy a day of real pleasure with and the day was a source of pleasure. In the afternoon the crowd was entertained by music.

There were about 60 present and the day will be long remembered. Here's hoping Uncle Brub may live to enjoy many more such happy days.

A NIECE.

RED CROSS CHANGE

Mr. E. G. Barrass, who has served as chairman of the Red Cross Civilian Relief, since its institution in Ohio County, has resigned. Mr. Barrass has done quite a lot of work first and last in the capacity as head of the organization, which position has carried with it no sort of remuneration.

Miss Elizabeth Moore, Secretary of the Civilian Relief, will remain in that position and will continue the work from the office of Judge J. B. Wilson.

No successor has been selected for the place made vacant by the resignation of Mr. Barrass, but this will be done at the next meeting of the directors.

SIX O'CLOCK DINNER

The Rev. A. D. Litchfield, pastor of the Methodist church here, was host at a six o'clock dinner to the members of his board of stewards last Friday evening at the Methodist parsonage on South Jefferson street. A delectable three course bird dinner was served much to the gastronomic satisfaction of his guests. The culinary acquirements of Rev. Litchfield's wife and his pretty daughters were thoroughly demonstrated in the elegant repast served.—Princeton Leader.

GOOD MUSIC FOR HARTFORD

Messrs. L. T. Riley and W. P. cured Parr Bros', Dixieland, Jazz Taylor announce that they have secured, of Louisville, Ky., to furnish music for the big Xmas dance Dec. 23. This band played for the Thanksgiving dance here last week. If you didn't get to hear them then, don't fail Xmas, for there are none better.

TOBACCO MARKET OPENS WITH RECORD PRICES

Burley Sold As High As \$30 Per Hundred and Prior Brings As Much As \$58.

The Green River tobacco market opened in Owensboro Monday morning with some of the highest prices ever paid for tobacco in Western Kentucky. The market was considered at least \$5 higher than on the opening day in December, 1918. It is the opinion of those who followed the morning sales closely that the general average of the day would be between \$18 and \$20.

When the sales opened at the Lancaster house in the eastern division and Field Brothers in the western division, it was estimated that 1,500,000 pounds of tobacco were on the seven loose leaf floors, and tobacco was still coming to Owensboro.

The highest price paid for dark tobacco was \$58 for leaf, which was sold at the Lee Birk house. There were several loads of Pryor in which leaf sold from \$40 to \$50. The top price on Burley leaf was \$80 and Burley trash \$62, both sold at the Lancaster house.

The Lancaster house sold 44,410 pounds of Burley that made an average of \$34.38. This brought \$15,263.24. Two baskets of trash sold for \$31 and \$32, while two baskets of leaf brought \$79 and \$80. On Burley sales J. A. Toler, of Lewisport, made an average of \$56.41; Jesse Knox, of Lewisport, made an average of \$42, and C. T. Perkins, Maceo, made an average of \$48.73.

The Lancaster house had not finished its sale at noon hour, but will sell about 250,000 pounds of Pryor tobacco. Mr. Bentley, manager of this house, expressed the opinion that his average for the day will be closed at \$20.

Capt. W. T. Ellis sold a basket of Pryor trash for \$23.50 per 100 pounds.

At the Daviess County house about 150,000 pounds are on the floor, and there are about 125,000 pounds on the floor of the Equity Home house, which will be sold in the order named.

Field Brothers completed their sale of about 150,000 pounds. In this lot there were about 15,000 pounds of tailends or what is known as the "last cuttings." There were very few rejections.

Mr. Field stated that his sale was a most satisfactory one, and some high prices and averages were obtained. No official figures could be secured, but some leaf sold as high as \$50, while lugs brought \$34. Trash sold as high as \$17.25. A. R. Pirtle, a farmer living west of the city, received highest price at this sale.

At the Lee Birk house, about 40,000 pounds were sold. This house received \$53 for a basket of dark leaf, the highest price paid for Pryor at any of the houses during the morning sales. The lugs sold for \$26.50 and trash \$23. Mr. Birk had a fine market and was pleased with the prices that tobacco brought at his house.

The West Ninth-street house began its sale at 1:30 o'clock this afternoon, with about 450,000 pounds of weed on the floor. In this lot some extra fine Burley and Pryor is found which will doubtless bring high prices. This sale will not be completed before 10 o'clock Tuesday morning, and will be followed by the sale at the Farmer's Loan Leaf house, which also has over 400,000 pounds on the floor.—Owensboro Inquirer.

HARTFORD TOBACCO MARKET OPENS

The local tobacco market is now open. Although the O. T. Burns house had been receiving some tobacco along for several days, the first big rush came Monday when scores of wagons came rolling in loaded with the weed. There are many small loads, due to the fact that many farmers have only stripped a small portion of their crop, but the line of wagons is continually being added to as those in front receive their checks and drive away. Farmers seem well satisfied with prices this year. We are not informed as to the exact time when the other houses are to open.

FOREIGN MISSIONS BOARD OF THE SOUTHERN BAPTIST WOMEN

By FRANK E. BURNETT
Are you used to thinking of women's part in church work as merely that of going to Sunday school, passing the offering and presiding at the table of the church? If so, probably you have not been to church recently.

Since the Southern Baptist women began their organized work through the Woman's Missionary Union they have contributed more than \$5,000,000 in cash to the various causes fostered by the denomination, and when the value of boxes they have made up for orphan children and other benevolent causes is added their total contributions reach the sum of \$5,770,000.

Encouraged by the general spirit of the Baptist 75 Million Campaign, however, the women gladly assumed the task of raising \$5,000,000 during the next five years, or one-fifth the total sum sought in the campaign, and their leaders have no doubt that they will raise every cent of this amount and more.

And the women's part of the money is going to be raised through the hard work, earnings and sacrifices of the women themselves and not through sums contributed by the men or their families.

Legitimate Giving Will Raise Fund.
Nor are the women going to depend upon church support, fair, bazaars, ice cream socials, pink teas and things of that kind to assist them in their undertaking. All such methods of raising money for religious purposes are frowned upon by the leaders of the Woman's Missionary Union. Instead, the women will work, sacrifice and save in order that they may during the next five years give \$1,000,000 to the advancement of the Kingdom of God in the world through larger contributions to foreign, home and state missions, Christian education, hospitals, orphanages, industrial relief and other equally deserving benevolent causes.

Every Good Cause is Aided.

The women of the South are doing independently of the general organization and of the other states those of Georgia were largely instrumental in the erection of a hospital for women at Hwang Hien, China, of which Dr. T. W. Ayers is the superintendent; they built and maintain the Mary P. Wilkingsham School at Blue Ridge, Ga., for the training of the girls of the

mountainous section of that state; have provided a girls' school at Kumamoto, Japan, and have launched a campaign for the erection of the Catherine Bryan Normal School at Shanghai, China, for training kindergarten and other school teachers, in recognition and appreciation of the services of Miss Catherine Bryan, educational missionary in charge of the kindergarten work at Shanghai.

Women of Alabama have established the Kathleen Mallory Hospital at Laichowfu, Shantung, China, in appreciation of the services of Miss Mallory, a native of Alabama, as the general corresponding secretary of the Woman's Missionary Union; those of South Carolina maintain Long Creek Academy, an institution for girls and have established a domestic science department in Morris College, an institution maintained by the Negro Baptists; those of Illinois carry on special work among the Lithuanians and other peoples of foreign birth in that state—Baptist women becoming "friends" in a special way to the various foreign-born women in their midst and thus seek to help them along general as well as religious lines—and similar work is done by the women of Florida in the Cuban and Italian missions in Tampa.

In Maryland, the chief work is done at Baltimore, where the Good Will Center enables the workers to reach all classes and kinds of people. The Daily Vacation Bible School forms a connecting link between the work of the spring and fall at that place.

While there is some support given the Women's Training School, operated at Fort Worth, Texas, in connection with the Southwestern Baptist Theological Seminary, by the women of other states of the Southwest the bulk of the money for the maintenance of this institution comes from the women of Texas. Large Good Will centers are maintained in the mining districts of Oklahoma by the Baptist women of that state, in the packing center of Fort Worth by the women of that city, and in the teaching sections of Louisville and a number of other large cities of the South by the women of those cities. In many of the states the women are supporting missionary workers on foreign fields, providing scholarships for young women preparing themselves for this character of work and otherwise promoting the cause of Christian missions at home and abroad. It is the aim of the general Woman's Missionary Union ultimately

to assume the support of an women missionary workers sent out by the Foreign Mission Board of the Southern Baptist Convention. Aid Development of Young People.

But the women do not confine themselves to gifts of money alone. They are doing a large educational work and contributing much to the development of the children and young people of the homeland in the various Christian graces and in personal service.

The chief aims of the W. M. U. for the current year are set forth as follows:

"Individual and united prayer, regular Bible and mission study, systematic and proportionate giving, and organized personal service. Grateful to God for His manifold blessings, and desirous of knowing God better, we again declare ourselves on the side of these forces which make for righteousness, standing for patriotism, supporting national prohibition, maintaining Sabbath observance, keeping the home inviolate, urging a general re-establishment of the family altar and assisting Americanization, better industrial conditions as regards women and children, public health, education and purity of life."

In the program of personal service for this year the women adopted the following resolution:

"That we continue organized effort to reach the oppressed and unsaved in our immediate localities. That to this end we study the state and federal statutes relating to health, employment of women and children, and general public welfare, reporting lack of enforcement to the proper authorities. That we study the policies and methods of missionary and social service organizations, adapting those best suited to our aim of preventing and eradicating community evils and making known the power of God unto salvation. That we strive to meet the needs of our soldiers to pray for them, and continue to help the Red Cross and our own denominational agencies in efforts to rehabilitate the war-stricken countries of Europe."

"That we bend every effort to promote food conservation, and to raise the standard of health in our communities. That in cities of 5,000 and over we establish and maintain Good Will Centers or a number of Homemakers' Clubs, industrial schools and Daily Vacation Bible Schools; that in the smaller towns we conduct Homemakers' Clubs, industrial schools, mission Sunday Schools or Daily Vacation

Bible Schools. That we strive to meet the needs of our soldiers to pray for them, and continue to help the Red Cross and our own denominational agencies in efforts to rehabilitate the war-stricken countries of Europe."

The total number of visits made was 3,319, religious conversations 269, conversions 64, prayer services 51, Bibles and pieces of literature distributed 1,757, missionary talks made 35, Sunday School classes taught 1,031, total average attendance 2,200, number clubs held 489, and total average attendance 3,997.

The entire program of the 75 Million Campaign, in which the women have assumed such a large part, contemplates raising during the next five years \$75,000,000 to be apportioned as follows: Foreign missions, \$20,000,000; home missions, \$12,000,000; state missions \$13,000,000; Christian education, \$20,000,000; hospitals, \$4,800,000; orphanages, \$4,700,000, and ministerial relief, \$2,500,000.

Cash and subscriptions with which to put over this program of carrying the gospel and gospel institutions to all parts of the world will be taken in every Baptist church in the bounds of the Southern Baptist Convention during Victory Week, November 30-December 7th.

The students did a large amount of hospital visiting, where Bibles and religious literature were distributed and personal work done, while other personal service was carried on at seven different Baptist churches of the city, the Good Will Center Settlement and Cabbage Patch, Wesley and Mr. Little's Settlements, Home for Incurables, Home for Friendless, Masonic Orphan Home, City Hospital, Associated Charities, the Y. W. C. A. and seven factories.

The total number of visits made was 3,319, religious conversations 269, conversions 64, prayer services 51, Bibles and pieces of literature distributed 1,757, missionary talks made 35, Sunday School classes taught 1,031, total average attendance 2,200, number clubs held 489, and total average attendance 3,997.

HARTFORD EVIDENCE FOR HARTFORD PEOPLE

The Statements of Hartford Residents Are Surely More Reliable Than Those of Utter Strangers

Home testimony is real proof. Public statements of Hartford people carry real weight. What a friend or neighbor says counts for much. The word of one whose home is far away invites your doubts. Here's a Hartford man's statement. And it's for Hartford people's benefit.

Such evidence is convincing. That's the kind of proof that backs Doan's Kidney Pills.

J. A. Baird, R. F. D. No. 5, Hartford, Ky., says: "I used only one box of Doan's Kidney Pills, but that was all I needed to cure me of kidney weakness. For some time I had been troubled by sharp twinges across my loins and other symptoms of kidney complaint. As I heard Doan's Kidney Pills being highly recommended, I got a supply and their use cured me. I can recommend this remedy."

Price 50c. at dealers. Get simply best for money—get Doan's Kidney Pills—the same as Mr. Baird had. Order Miltown Co.

Why Mr. Joe Armstrong, Celebrated Dog Trainer, Uses RAT-SNAP

"Noticed rats around my kennels, having hundreds of prize dogs, couldn't take chances. Tried RAT-SNAP; in three weeks every rat disappeared. Noticed that the dogs never went near RAT-SNAP. I tell my friends about RAT-SNAP. Use this sure rodent it's safe. Comes in cake form. Three sizes, 25c, 50c, \$1.00. Sold and guaranteed by J. S. Casebier & Co., and Taylor Drug Store, Beaver Dam; Acton Bros. and Williams & Duke, Hartford, Ky.

Delker Buggies and Owensboro Wagons are made of good material throughout. We have them here at the old price.

HOW BOYS AND GIRLS KEEP WELL

STAND ERECT

See the Soldiers march away:
Tall and straight, in line they go.
The Captain drills them every day,
In rules of health that you should know.

If you would strength and health protect,
Sit up—stand straight—throw out your chest.

Keep shoulders back and head erect;
Of all life's blessings, health is best.

Coughs and Colds
Don't neglect a cough or cold
That does not soon get better,
But go to Mother, she won't scold,
And find out what's the matter.

If improvement seems too slow,
You'd better to the doctor go.
And what he says, you must be sure
To do, if you desire a cure.

Keep Clean
Dirty hands and dirty face,
Look quite ugly any place.
But at table we must be
Neat and clean and orderly.

Good clean food means strength and health,
Better than the greatest wealth.
To keep it clean you must agree
To wash your hands quite thoroughly.

Breathe Deep
You should breathe long and deeply,
Your mouth you must close,
And then all the air
Will pass in through your nose.

Of all the rules of health
This is one of the best;
As you will find out
If you give it a test.

Best Doctors
Of all the doctors in this town,
None can reach such high renown
As Doctors Sunlight, Rest, Good Food,
And Doctor Fresh Air too, is good.

No medicine these doctors give,
But they will teach you how to live
So you will never sickly be.
But live quite long and happily.

Sneezing
It is not right to cough or sneeze
In other people's faces.
And never, never, should you spit
On floors or public places.

And when you go to get a drink,
Don't use the glass that others use
Have your own cup, and always think,
Good Health is far too fine to lose.

Pure Food
Be sure that all the food you buy;
Fruit or candy, cake or pie,
Is pure and fresh and strictly clean;
Protected by a glass or screen.

Food for sale on city street,
Is only fit for germs to eat,
And they must like it very well,
For that's where millions of them dwell.

Germs
Germs that float upon the air,
Strike the desk and settle there.
Upon the pencil they collect,
And fingers too they will select.

Fingers, pencils, both we use
To write our lessons when we choose.
But to our mouths we must not carry
Things not clean or sanitary.

The Fly
The fly through filth and germs will stalk,
And then upon our food he'll walk
Of all germ carriers, he is worst;
He kills, unless we kill him first.

The food he's touched, we must not eat;
His touch might poison bread or meat.

Let's screen the house to keep him out,
And swat all flies we see about.

Sore Throat
When you go out in rain or snow,
Put on your rubbers, coat and hat
For you might catch a cold, you know,
And be real sick like little Pat.

When Pat went out he felt quite warm,
And would not wear his hat and coat.
Sure, thought he, there'll be no harm,
But now he has a bad sore throat.

For your stomach's sake use a malleable Monarch range. Vitreous enameled, rust proof. On display here.

HOLLAND LAND OF PRIMNESS

American Visitor Attracted by Neat Appearance and General Cleanliness Everywhere Noticeable.

Holland and the Hollanders are as unlike France as two countries can be. Corp. David Ramsey writes in the Indianapolis Star. The rural districts of Holland look like one big formal garden and the cities of Holland look as if they had been cast in a huge mold, set down carefully and scored and polished every day. But France looks more like a country expressly designed to please the eye, and the cities of France, more better-sketter, reflect the temperamental spirit of the French.

A small city in France neglects whole streets and districts in order that one spot, one park, cathedral or building, may be beautiful. But in Holland the idea seems to be to make it all substantial and neat and that is why wherever one goes in Rotterdam or The Hague he finds the same orderly rows upon rows of apartment houses or business blocks with the same little staid parkways and parks that somehow remind one of the old-fashioned "best rooms" of a generation ago.

I have covered Rotterdam and The Hague, and in neither city have I found a district that corresponds to our tenement districts or that was characterized by the squalor or dirt of the poorer sections of our American cities. I found districts where poor people lived and where the houses were not so good, but even those poorer people looked clean and their houses were clean, the streets and alleys clean, just as in the better districts.

In Holland it is the men who wear the best clothes; it is the men who are the better looking; the best shops are for men, the tobacco shops of Rotterdam are gorgeous, there is no other word, they rival in splendor even the jewelry shops of Fifth avenue, New York. The shops for men's wear are much more attractive than those for women's wear and everything there seems to be of men and for men.

In Rotterdam one would not, as he would in a French town, drop into a cafe or store and start jollyling the madame or mademoiselle and playing with the youngsters. I rather think that if we did that over there the stolid Dutch frau would call for help and one of the solemn-looking policemen who stalk about the street would escort us to the local jail. Those things aren't done in Rotterdam.

The Return of the Sword.

The British army order requiring all "field marshals, generals and colonels, when dismounted," to wear the sword on all ceremonial parades and at official ceremonies, has provided material for the humorists. The sword, having been superseded by other weapons for those who actually come in contact with the enemy, and being therefore doubly useless to officers of exalted rank who must remain at a considerable distance from the hand-to-hand engagements, had been discarded during the war. But now it returns with all its faded glory for times of peace and its formidable "clank" will once more accompany its wearer's martial stride. However ludicrous this may seem, it is apparently to some extent unavoidable owing to the forbidding ugliness of modern engines of war—bombs, trench porters, portable machine guns and the like, which are obviously less desirable as emblems of authority than the graceful lines of the sword, the scimitar and the halberd of other times.

Atlantis' Effort in 1873.

Although the first successful passage of a dirigible across the Atlantic easily called to mind the attempted journey in 1910 of Walter Wellman in the dirigible America, considerable time seems to have elapsed before anybody remembered the old-fashioned balloon Atlantis and its effort nearly fifty years ago to cross the ocean. The Atlantis started from Brooklyn, N. Y., at nine in the morning of October 6, 1873, carrying as passengers Prof. Washington H. Donaldson, who was chiefly responsible for the enterprise, and two companions, Alfred Ford and George A. Lunt. The travelers were carried in a regular ocean lifeboat, suspended beneath the balloon, and to answer the purpose of modern wireless apparatus the expedition was equipped with homing pigeons. The effort was short lived, for the balloon came down, the same afternoon in New Canaan, Conn., about 100 miles from the starting point, having made no progress toward Europe.

Work Counts.

"Recommendations are all right in their way," declares Mayor Snyder "but nowadays they are too lightly given to be of any real value. Like that of a cook that once applied at my home. When told that her recommendation was really a very poor one, she replied: "Well, sir, 'twas this way. The missus was too busy to write it so she had the maid do it and the maid had only been to night school three times sir."—Los Angeles Times.

Hint Proved Effective.

Peggy was allowed as a special favor to accompany her parents to a dinner party given at a friend's house one evening. Jelly of the kind made with gelatine and fruit juice was a dessert. In some way Peggy was overlooked when this was passed, but being a polite little girl she did not ask for any, but at the conclusion of the meal she turned to her neighbor and said: "What flavor was the jelly?" Needless to say, she was helped to a generous portion.

"Gee-Whiz! How it Hurts—
—The Pain in My Foot!"

"Sometimes it is in my arm. Merciful Heaven, how my back hurts in the morning!" It's all due to an overabundance of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking the advice of Dr. Pierce, which is "Keep the kidneys in good order." "Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking Anuric." This can be obtained at almost any drug store.

Send a bottle of water to the chemist at Dr. Pierce's Lavalles Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, take heed, before too late. Get Anuric (anti-uric-acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce ten cents for trial package.

THE RED PERIL

The spread of the I. W. W. doctrine in the United States is becoming alarming. That it is their desire to overthrow our government as their brethren did the Russian government, goes without question. Local authorities of the communities where this anarchist spirit prevails are combating the evil to the best of their ability, the American Legion, aroused by the murder of former soldiers at Centralia Washington, are aiding in the suppression of these traitors and the law enforcing authorities of the national government although hampered by a lack of laws governing the subject have made considerable headway in quelling this sneaking enemy but not until the national congress passes a law giving the Attorney General full powers to combat this evil and provides a punishment suitable for men who would rob us of everything that goes to make up the happiness of a peace and liberty loving people, will we be able to rid ourselves entirely of this terrible foe. On November 17 of the session just passed a bill that would clothe the law enforcing powers of our national government with suitable authority to deal with this question and making these seditious and traitorous acts punishable by a fine of not more than \$10,000 or imprisonment for not exceeding 20 years or both such fine and imprisonment, and for deportation of certain classes of these traitors was presented by Hon. M. L. Davy, of O. This is the best bill of this nature that has yet been introduced but congress was so engrossed with other matters at the last session that it remained in the hands of the committee on the judiciary. Those in favor of such legislation (Every man who loves his country should be) should write their members of Congress expressing themselves in no uncertain terms about this matter so that when this or a similar bill first presented in the session now sitting these lawmakers will know how their constituents feel about this important matter.

A red-light production, either in the dramatic or vaudeville line, can neither win or hold an abiding place in the eyes of a respectable community. A hint to the wise is sufficient to obviate further comment.

HARNESS-COLLARS-SADDLES &c

FRIEND FARMER: First I want to thank you for your past patronage; second, I hope I have served you in a way to maintain your trade. We anticipated the advances on leather &c., and bought heavy. Our stock is the largest ever carried in Daviess county. The selections are just what you will want. In the first place we make all the strap goods we sell, we buy our leather direct from the tanner and the hardware from the mfrs. This means a saving of about 30 per cent. For these reasons we are in position to save you many dollars. You know that a soggy, flanky piece of leather is of no more value to you than a barrel of rotten apples, so why buy the same article several times to get what one first class selection would do. We give you what you always have need of and is safe to use. Watch this paper, as we are going to give you prices from time to time to show you we want your trade and not all your dollars. When in Owensboro, call and see what we have, as it is a pleasure to show our goods. Hop- I am

STARTED IN JOKE

Explanation of Story of Roosevelt's Hard Drinking.

Colonel Informed Group of Newspaper Men How the Rumor Originated—Jesting Remark Caused All the Trouble.

Few things in Colonel Roosevelt's later life are fresher in the public memory than his suit against a Michigan editor who accused him of drunkenness, writes John J. Leary, Jr., in McClure's. The unfortunate editor, unable to produce a scintilla of proof, admitted his fault, and so far as the records go, the matter was disposed of. There was nothing developed, however, to show where the tale started or what foundation, if any, it might have had.

Colonel Roosevelt, however, had an explanation. He gave it to us one afternoon in the trophy room in Oyster Bay; when passing the cigars around, he remarked that he would vouch for the quality. "They must be good," he remarked, "for they're some of Leonard Wood's. I never smoke myself, so I have to rely on the judgment of others."

"Did you ever smoke?" some one asked.

"There is where that story of my drinking started," he continued, not hearing the question or ignoring it.

"You see, when I would decline a cigar, saying I did not smoke, folks would often ask, in a joking way: 'What are your bad habits?' In the same spirit I would reply 'Pride fighting and strong drink.'"

"Now, it so happens that the Lord in his infinite wisdom elected to create some folks with whom it is never safe to joke—solemn asses who lack a sense of humor. I am very fond of that story of Sidney Smith's who, playing with his children, stopped suddenly, saying: 'Children, we must now be serious—here comes a fool.' You know the kind he meant—those poor unfortunates who must take everything said to them literally."

"One of these to whom I made that remark said: 'Roosevelt, I hear, drinks hard.' The other fool replied, 'Yes, that's true. He told me so himself.'"

"And so it went."

"That is all there ever was to the talk of my drinking. From that start it spread and spread until, in self-defense, I was compelled to take action to stop it. Some folks have said I went out of my way to find a little editor who could not defend himself. The fact is, he was the one editor I could hold to account. There were and are editors nearer New York I gladly would have sued under like circumstances, but they knew better than to print what they knew was untrue. Had any one of them done so I would have hauled them up short, and with much more glee than I did the Michigan man, for the men I have in mind have real malice toward me, and he, I am satisfied, had none."

"We parted good friends. I certainly had nothing against him. In his zeal to do things, he put in print what shrewder and really malicious men who would harm me if they could, dare not do. I believe he was honestly sorry when he found his error."

"However, the thing had its value. We're never too old to learn, and I learned to be careful with whom I cracked the simplest joke. Thank God, there are many you can joke with in safety. If we couldn't laugh once in a while what a world this would be! It wouldn't be a world—it would be a mad-house."

Avoid All Form of Worry.

Worry is the skeleton that befores many a secret chamber. To be sure it may be difficult to forestall the monster. A moment's unguarded speech may occasion the loss of friendships that can never be regained. A hasty decision may mean the loss of fortune. The indiscretion of friends may put us in jeopardy for the rest of our days. There is occasion enough to be alarmed when such things happen. The mind seems to revert its troubles as water does to its levels. If these things are permitted to remain as the creaking occupants of the mind the result will be worry and mental friction. Like sand in the gears it will wear out the mental power and make people old before their time. You dare not allow your mental life to be sapped by friction.—Exchange.

How Coal is Tested.

Coal sold on the basis of heating value is tested by the United States bureau of standards by the bomb calorimeter. A thirtieth of an ounce of coal is enclosed in a strong steel capsule, oxygen under high pressure is introduced, and this bomb being placed in the calorimeter, the coal is ignited electrically. The heating effect is calculated from the rise of temperature of the water in the calorimeter. Coal samples of known heating value have been prepared, and are supplied to persons using the calorimeter to enable them to check their own results.

An Election Set.

It was at the time of the presidential election. There were two boys, great chums, who expected to be married soon. One was a Republican, the other a Democrat. This young Republican was so sure of Hughes that he told his chum if his man lost he would go without a shave a week before and a week after the wedding. He lost, and was married before a large crowd, as grizzly as a bear. He almost lost his bride over this episode.

PALACE A TOWN IN ITSELF

More Than Fourteen Hundred Rooms in Vienna Home of Ex-Empress of Austria.

There are 1,440 rooms in the city palace formerly occupied by the emperor of Austria, in Vienna. It is also equipped with 100 kitchens and the courtyard covers 25,000 meters. The massive doric columns at the outside entrance were constructed by Peter von Hobbie in 1821-24. Through these one enters the "Palace of Heroes," outside the castle ward. A new wing was added here in 1887-94. The inner walls are of the Renaissance style, by Olmann and Baumann, and were completed in 1917. Further on, toward the eastern side of the ground, is the Heldenplatz, where stand two exquisite monuments, the largest in the capital. The one on the left is that of Prince Eugene, while that on the right is of the Archduke Charles, who defeated Napoleon at Aspern.

A Roman ruin of ancient date is seen in the castle grounds. It is characteristic of the Roman conquerors, but is so dilapidated that but two or three of the piers remain, the others being nothing but crumbled stone. A tall arch is the best preserved part of the ruin.

Near the Roman ruin is a great obelisk, resembling a needle more than most monuments of the kind. The top is finished in gilt. The sides bear hieroglyphics of the history of Austria. Near it is the glorious Neptune fountain, and from Schene Brunner (beautiful fountain) the castle grounds derived their name, Schonbrunn.

RED TAPE FINALLY UNWOUND

For a Time It Had Sergt. Hayes Tied Up, But He Came Out a Lieutenant.

Once upon a time there was a man who "fired" his employees that he might have the pleasure of hiring them over again. That would seem to be somewhat the way with the marine corps. It "fired" its men that the government may do them special honor.

Sergt. Edgar Hayes, a red-blooded patriot of the marine corps, overheard an aspersions upon the uniform of his service. Sergt. Hayes promptly hit the speaker in the nose. The marine corps sat upon his case in solemn court-martial, and after much deliberation dismissed Sergt. Hayes from the service, thus creating civil disabilities. The case later was reviewed by the president, who pardoned Hayes and restored him to citizenship. Hayes has now been restored to the service and created a first lieutenant, an act of congress having empowered the president to make the appointment.

It is a roundabout way of doing a man honor. And it shows something wrong with the system. We wonder what the dignified gentlemen of the court-martial would have done if it had been proved that Sergt. Hayes, now Lieutenant Hayes, having overheard an aspersions upon his honorable service, had condoned it by inaction.—Cincinnati Times-Star.

Lumber Cut of 1918.

The lumber cut of the United States in 1918 was 29,362,020,000 feet, as reported to the forest service up to June 15 by 14,753 mills. The complete total cut is \$1,890,454,000 feet, based on the assumed operations of 22,546 mills. The computed cut in 1918 is 11 per cent smaller than the computed production in 1917.

A comparison of the computed cut of several of the larger general producing regions in 1918 with the figures for the preceding year shows a smaller output by approximately 20 per cent in the yellow-pine group of states, a decrease of 19 per cent in the North Carolina pine group and of 9 per cent in the Lake states. An increased cut of 2 per cent is noted for Oregon and Washington.

Huge Hallstones.

There are numerous well-authenticated cases of hallstones weighing half a pound and more, but claims which go far beyond this meager weight are made. Stones of six to eight pounds are said to have fallen in Namur in 1719, and the missionary, Father Hue, who ought to be a credible witness, records the fall in Tartary in 1843 of a block of ice as big as a millstone, which took three days to melt. In May, 1862, a Hungarian village reported a 1,100-pound block, requiring eight men to move it, and in Tippeco's time one as big as an elephant was said to have fallen near Seragapatam. These are "some" hallstones.

Helpfulness of Criticism.

It is natural to resent criticism. We dislike anything that shakes our self-complacency or compels us to think. Here and there a man has learned the real service of criticism and usually he is a man who has attained to more than average success in life. We are all more or less like the proverbial ostrich. We like to convince ourselves that our faults are really our virtues, in that we are doing good work in the world when in truth we are lagging far behind our actual capacity and drifting along rather than really living.—William E. Towne.

New French Roads.

French dispatches recently stated that the entire road construction program there will cost nearly two billion francs, which it is estimated by Mr. Bedouce, budget reporter, will give France a road system superior to that before the war. One hundred and seventy-six million francs have been allocated to road repairs in the invaded regions.

Radio Telephone Useful.

The extraordinary value of wireless telephony for directional purposes in connection with aircraft has been emphasized recently in its relation to night flying, says the Scientific American. It often happens of course, that in daylight inter-communication between planes, or between wireless stations and aircraft, is unnecessary, but in flying across country at night the use of the wireless telephone will certainly become more efficacious.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address P. GREEN AND OHIO RIVERS BOOMING

Panther Creek Out of Banks; Little Damage Has Resulted So Far

The rise in the Ohio river here on Saturday was again estimated at about six feet making a nearly twelve foot rise during the last forty-eight hours. The river is still rising from Point Pleasant, Ohio, all the way down so the rise here may be expected to continue for a day or so. If the heavy rains of Saturday morning were general the flood stage may be reached for the second time this year.

Green river rose over two inches an hour on Saturday. Lower Green river is within five feet of the stage reached some weeks ago when so much damage was done to corn in the lowlands along the Ohio and Green rivers. Even if both rivers reach the same stage again, however, the damage will not be great as most of the corn is now out of the river bottoms.

Some damage is being done by the high stage of Panther creek, which, after the heavy rains of Saturday morning, left its banks in a number of sections, particularly around Philpot. The creek is still rising. Some corn is being damaged.

Slight damage was done to crops and property throughout the county by the rain Saturday which flooded fields and covered roads in some sections rendering traffic impossible. The wind which followed the rain blew down a few trees and damaged several houses.—Owensboro Inquirer.

High Temperature May Mislead. High temperature does not always mean fever, for the body heat may be increased by exercise or eating, and a rise of as much as 1.3 degrees Fahrenheit has been traced to mental work. Dr. F. B. Wynn of Indianapolis reports that drafted men before examination showed an average rise of 0.3 degrees from the anxiety and suspense, with a corresponding depression below normal after examination. In 40 nurses the fall after examination averaged 0.6 degrees. The psychic rise plus the daily elevation may lead to false conclusions if the physician is not careful.

His Mistake. Flatbush—You know my wife and her sister look very much alike. Bensonhurst—Oh, is that so? "Yes. Why, the other day I got a seat in a crowded trolley car, and when I got off my sister-in-law was also getting off the same car and she gave me Hall Columbia for not getting up and offering her my seat." "Well, why didn't you offer her your seat?" "Didn't you know her?" "No, I didn't. I really thought it was my wife!"—Yonkers Statesman.

Even the Seal. It is one of the disillusionments experienced by most sojourners on this planet that the wonderful places of childhood's enjoyment are found to have shrunk amazingly on being revisited in after years. Even the small people find that imagination plays pranks with them, and are driven to some such remark as that of the little girl who, on being taken back to the seaside after two years or so, exclaimed: "It's not the same, mummy darling, it's gone out of shape."

Farm Lands Grow in Value. The value of farm lands is increasing steadily in the United States, the average for average grade plow lands being about \$74.31 per acre on March 1, as compared with \$68.38 a year ago, \$62.17 two years ago, and \$58.39 three years ago.

Do You Know the Signs of Lack of Iron in the Blood?

Lack of Appetite—Easily Tired—No Endurance—Nervousness—Pale, Anaemic Appearance, etc.

A NEW FORM OF LIQUID IRON

Iron is the greatest and surest blood maker, but heretofore the difficulty has been to procure it in a form which the human system would absorb in sufficient quantities to bring satisfactory results. Pills and tonics said to contain iron have usually brought only disappointment.

But now there need be no longer any doubt or question, for a successful and reliable method of getting iron into the blood is assured by the use of a natural form of soluble iron known as Acid Iron Mineral. There are thousands of cases on record that prove this natural iron is a powerful blood and nerve builder.

ASK YOURSELF

THESE QUESTIONS

How is your appetite? Do you relish the food you eat? Do you tire easily? Are you pale and sickly looking? Do you get nervous? Do you sleep well?

These are questions you should ask yourself frequently. You owe it to yourself and those around you to keep in as good condition of health as possible. Neglect of little things often leads to serious and complicated sickness.

At the first sign of fatigue or weakness at any point begin to strengthen the system through the blood. It is the surest way, for healthy blood carries strength to

the nerves, power to the muscles and replaces weakness with vigor.

There is nothing that can compare with Acid Iron Mineral for enriching the blood and making this life fluid pulsating with health and energy.

TO WOMEN IRON GIVES STRENGTH

The real difference between an old woman of thirty and a young woman of fifty is one of health and bodily vigor. The secret of Youth is nothing more mysterious than this.

The blood is perhaps the most important factor in maintaining health in women. You need no longer evidence than to look around you among the women of your acquaintance. The sick and ailing and pale are anaemic, listless and colorless—the lack of rich red blood is plainly apparent in their appearance.

The woman whose blood is healthy and full of vitality always has red cheeks, a good complexion and a body that is supple, active and tingling with energy.

And the most successful and reliable method of putting this great essential into the blood is through the use of a natural form of soluble iron, known as Acid Iron Mineral. Thousands of women have found health in this way, and have been able to retain the attractiveness of youth in spite of the advancing years.

THE BLOOD NEEDS IRON

You can supply what the blood lacks, you can enrich the blood, you can bring back the strength and vigor you once had, if you will take a teaspoonful of Acid Iron Mineral three times a day. You'll note the effect, first, in an increased appetite—food will begin to taste good. The next improvement will show in your sleep—you will awaken in the morning refreshed and feeling like a new person.

Your friends will remark the improvement in your appearance and you yourself will feel as you know you ought to feel.

And with this increased weight comes a better appetite, more refreshing sleep and a marked increase in vigor in every way.

Thin people can take Acid Iron Mineral to improve their appearance, and they will find their health benefited at the same time. Physicians say that this power to build new tissues and firm flesh is due to the extraordinary attraction the blood has for this particular combination of iron.

A REMARKABLE GUARANTEE

Acid Iron Mineral contains no alcohol or injurious drugs—it will not blacken the teeth, and druggists will refund the purchase price if you are not satisfied with the improvement it brings.

THE BANKS ARE AWAKENED

They Have Learned the Value of Getting Their Message Before the People Through Best Channel

The sale of Liberty Bonds and War Savings Stamps has done more to arouse interest in advertising among financial institutions than any other factor in years, according to W. R. Morehouse of the Guarantee Trust and Savings Bank of Los Angeles.

"The old mistaken notion that it is undignified for banks to advertise has been swept aside," said Morehouse in a recent address. It advanced financial advertising fully ten years. Many banks which looked with indifference on advertising prior to the war used it extensively in the sale of war bonds and War Savings Stamps. Posters and banners which under no ordinary circumstances would have been allowed to adorn the walls of these banks, were used in super-abundance.

"By using these mediums to sell war securities, hundreds of banks have been soundly converted to the value of advertising. This has made it easy for our bankers to reach the conclusion that it is not only dignified for them to advertise, but that it can be made very profitable as well."

The best banks in Missouri, Arkansas and Kentucky now have display advertisements in the newspapers nearly every week.

Eight Children Had Croup

"I have eight children and give Foley's Honey and Tar to all of them," writes Mrs. P. Rehkamp, 2404 Herman St., Covington, Ky.; "they all were subject to croup." It loosens and clears mucus and phlegm, stops that strangling cough, makes easy breathing possible and permits quiet sleep. It contains no opiates, and children like it. Good for colds, bronchial coughs and the coughs that linger on after influenza or grip. Good for grown-ups as for children. Sold everywhere.

MUST CUT CONSUMPTION OF PAPER, PUBLISHERS SAY

Birmingham, Ala.—A resolution urging on all members steps calculated to reduce the consumption of news print 10 per cent, during the coming year was adopted by the Southern Newspaper Publishers' association, in session here. Plans outlined include reduction of type, head and illustration sizes; decreased reading matter and advertising space, the latter to be obtained by increased rates, and also advances in subscription rates to meet white paper cost and expense.

STATE SCHOOL FUND WILL GET \$417,928.50 FROM BINGHAM ESTATE

Frankfort, Ky., Nov. 22.—The state school fund will get eighteen out of forty cents of the entire inheritance tax on the Bingham estate and the roads, university and normal school will share in proportion to the levy for their support in the general tax law.

The court of appeals this morning reversed the Franklin circuit court and held that State Auditor Green must pay into the state school fund eighteen-fortieths of the inheritance taxes collected and distributed.

Attorney General Morris took the view that under the law inheritance taxes went only into the fund for paying the general expenses of the government.

State Superintendent Gilbert brought the suit to collect \$417,923.50 inheritance taxes he claimed were due the school fund and the court of appeals sustained the contention.

Under the ruling only fifteen-fortieths of the Bingham tax can be applied to the payment of the state debt, as that is the amount of the levy for general expenditures.

NEXT-EVEN INSURANCE COMPANIES JOIN DRY

New York, Nov. 22.—Holders of reserve stocks of liquors stored in cellars will have to resort to watchdogs, burglar alarms and other forms of protection in the future.

Insurance companies announced today that no more insurance will be written on stocks of intoxicating liquors.

Prohibition has been a great stimulus to liquor thefts, it was reported.

HENDERSON BANK EMPLOYEE STEALS \$20,000 WORTH OF BONDS; RECOVERED

Henderson, Ky., Nov. 22.—Twenty thousand dollars worth of Liberty bonds, belonging to depositors of the Ohio Valley Bank and Trust company, stolen ten days ago, were recovered today in the safety vault of an Evansville bank.

Banking officials refuse to make known the name of the guilty party, but admitted he was an employee of the bank. He is said to be Carl Selle, who will leave for the west.

Five days after the bonds were stolen, \$5,000 in Registered bonds were received at the bank through the mail. This gave Pinkerton detectives a clue. The employee, who confessed, went with bank officials to Evansville, where he had the safety box containing the bonds. No warrant has been taken out.

ARMY DEMOBILIZED FASTER AFTER LATE WAR THAN IN PAST

Washington, D. C.—Demobilization of troops has proceeded at a faster rate since the armistice, last November, than during the period following the Civil War or the Spanish-American war, it is officially announced by the General Staff. The mustering out of troops at the end of the Civil War was practically completed by the summer of 1866, although a few volunteers were retained in service after November 1, 1866. The last organization of volunteers was disbanded December 20, 1867.

Following the war with Spain, the mustering out began September 5, 1898 and terminated June 22, 1899, except in the case of a few volunteer organizations which were held for duty in the Philippines. The last of these organizations was mustered out of service on November 23, 1899.

At the close of the Civil War (April 30, 1865) the strength of the federal armies was 1,034,064. The number of men in service on August 11, 1898, at the termination of the Spanish-American war, was 216,256. When the world came to an end last November the strength of the American army was 3,560,000.

Demobilization for the past year has reached 96 per cent, as compared with 95.4 per cent for the first twelve months following the Civil War. Demobilization following the war with Spain was practically completed with the tenth month, when a percentage of 83 was reached. The insurrection in the Philippines prevented the disbandment of a number of organizations until 1899.

SECURE A NEW LEASE ON LIFE THROUGH TRUTONA

"I'm 67 But I Feel Young and Strong, Since Using Trutona," Stephens Says

Louisville, Ky., Dec. 2.—"I'm sixty-seven years old but regardless of my age I feel young and strong today, since taking Trutona. Joseph Stephens, a Louisville carpenter who lives at 311 West Kentucky street, said recently.

"I had a bad cough," Mr. Stephens said in describing his case. "During the severe winter of 1917-1918 I moved from the country into town and contracted a bad cold at that time. I didn't dare to exert myself as I would invariably suffer a severe coughing spell if I did. I think I used every cough syrup I could find and I tried several other means but I didn't get relief from the cough until I began using Trutona."

"My friends told me I looked wretched and I certainly felt that way before I began taking Trutona. I came home from the south, where I had been working, presumably to die, but now I feel like a different man. The severe cough has practically disappeared now. As I said, I'm feeling young and strong at the age of sixty-seven."

Here is another of thousands of cases where Trutona has brought long needed relief after other medicines had failed. The perfect tonic is almost unfailing in its successful treatment of stomach, liver and bowel troubles, nervousness, sleeplessness, loss of appetite and the like. As a reconstructive tonic, system purifier and body invigorant, Trutona is equally as efficient.

Trutona is now being explained and introduced in Hartford, Ky., at the Ohio Co. Drug Co., is sold in Beaver Dam at the Beaver Dam Drug Co., and in Rockport at F. R. Her's Drug Store.

NEIGHBORHOOD NEWS.

EQUALITY

(Deferred)

Rev. R. E. Fuqua, of Hartford, was in our midst Saturday and Sunday to fill his regular appointment as pastor of the Smallhouse church. He was the guest of Mr. and Mrs. Ben Ross Saturday night and dined with Mr. and Mrs. N. D. Fulkerson Sunday.

Smallhouse church elected Rev. Fuqua by a unanimous vote as pastor for the ensuing year.

Mr. and Mrs. C. T. L. Overton, of Centertown, and Mr. and Mrs. Ward, of Centertown, were the guests of Mr. and Mrs. Tom Godsey Sunday.

A protracted meeting is announced to begin at Smallhouse Baptist church Tuesday night, Nov. 25.

Several from here attended the sale of Mr. C. A. Lindley Monday. Mr. J. R. Hunter went to Centertown Monday.

CARD OF THANKS

We desire to extend our heartfelt thanks to the many friends and neighbors for their many kind acts and assistance extended us during the illness and at the death of our beloved daughter, Maurine Parks. We especially wish to thank Miss Mary Laura Pendleton and her class for the beautiful floral design. Also the donors of the beautiful flowers presented during her illness and at the grave. May God's richest blessings be with you.

THE BEREAVED FAMILY.

LETTER OF THANKS

We desire to thank the many friends and neighbors for their kind assistance during the illness and at the death of our beloved mother, Mrs. Palestine Webb. Although most of her near relatives were in distant states when she became ill, nothing was left undone that might give her comfort. May God bless you.

THE BEREAVED FAMILY.

Winter Weather and Heavy Foods

Comparatively few persons exercise as much outdoors in winter as in summer, and at the same time almost everybody eats more heartily in cold weather. The extra work put upon digestive organs leads to indigestion, biliousness, headache, bad breath, coated tongue, bloating, gas, constipation. Foley Cathartic Tablets thoroughly cleanse the bowels, sweeten the stomach and benefit the liver. They cause no griping or nausea and are liked by over stout feeling they begin. SIGHT RESTORED TO THE ALMOST BLIND

Mr. G. R. Fulton, Wysox, Ky., could hardly see how to travel on the highway by day. He tried two Specialists and one doctor, who fitted glasses, but his sight was not improved. He went to J. B. Tappan and had his trouble corrected. Now he can read a newspaper, travel at night and says he would not take a farm for his glasses. You will do a lot of reading these long winter nights, don't strain your eyes with poor glasses but come in and have the correct glasses fitted to them. A blind man would be willing to pay a million dollars for a good pair of eyes if he had the money.
